Pre-Admission at Thomas Health

Our pre-admission testing service allows our patients to have all required medical tests completed several days before your admission to our hospital. This often means a shorter hospital stay, and pre-admission testing is often requested by insurance companies. Pre-Admission testing is done in the Medical Office Pavilion registration area, Monday through Friday. If you are coming in for pre-admission testing prior to surgery, you should go directly to the Thomas Medical Office Pavilion at Thomas or the Main Admitting at Saint Francis.
